Dedication

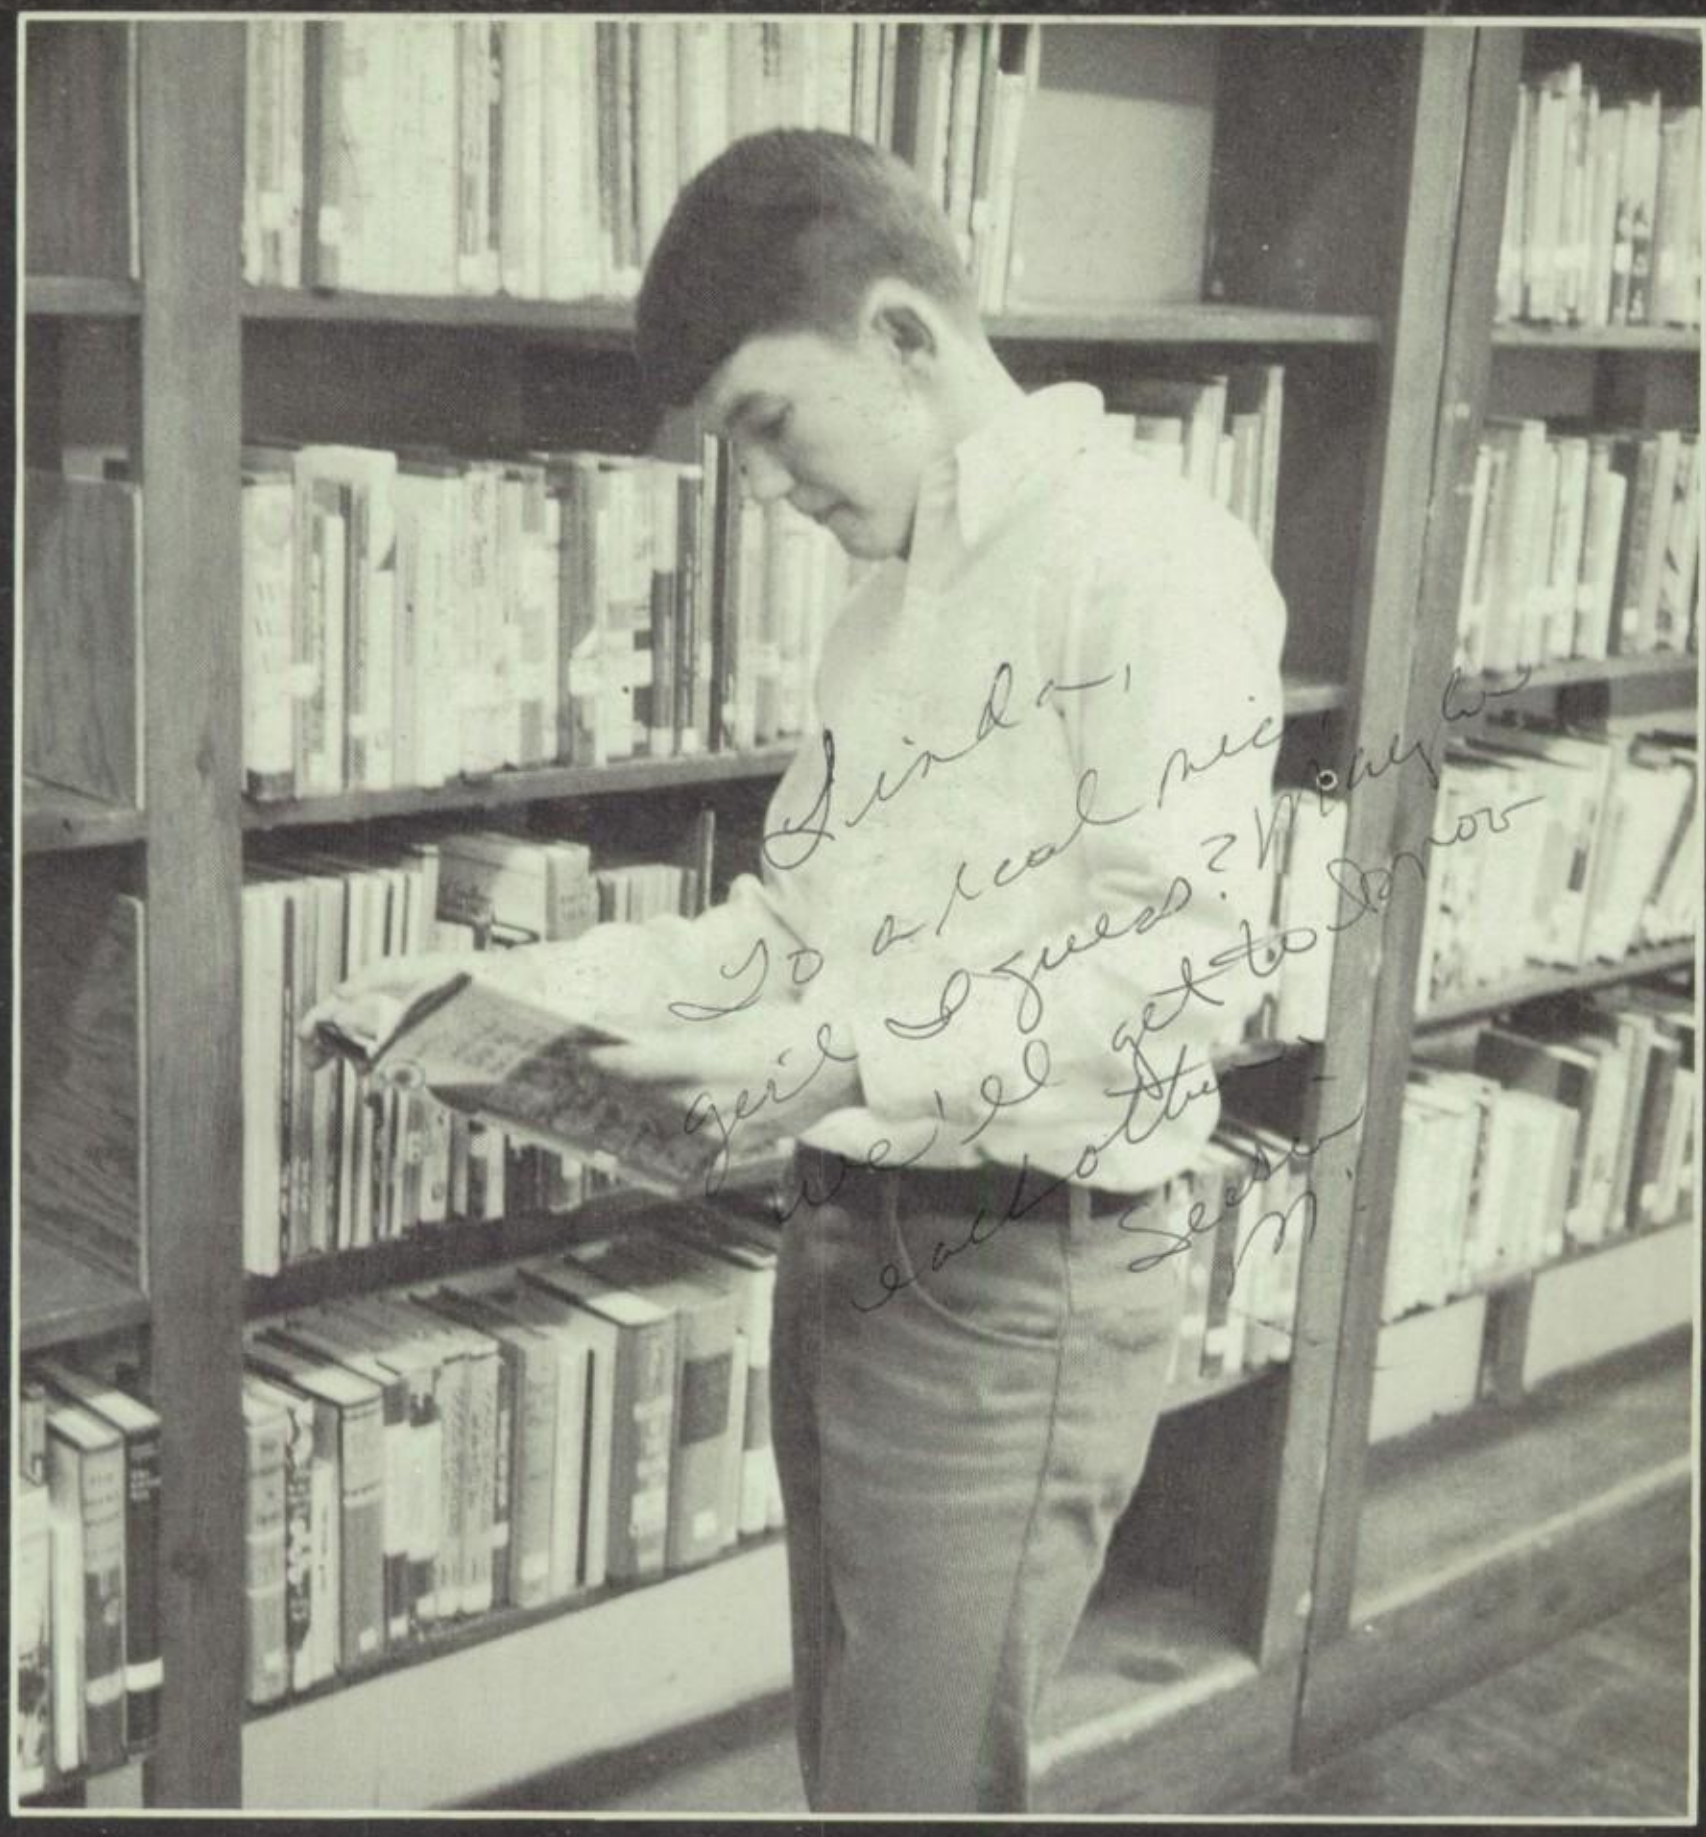
Mr. Lowell McFarland, a humble man of integrity, patience, skill, talent, kindness and honesty——you name it and he's got it.

Mr. McFarland, affectionately known as Mr. Mac to his students, is a man who tries in the upmost manner to bring enjoyment into each student's school life. As director of the music department, he is in contact with a large majority of the students every day and through this contact he does just such a job.

While music is his main love, he is also vitally interested in each and every student as a person, not just a face. He will gladly depart from his busy daily routine to help anyone that he can in every way possible.

The day just doesn't ever seem long enough for Mr. Mac, who is constantly running from place to place keeping up with his second love, his newspaper work. Through his work on the newspaper, the QUAD COUNTY STAR, Mr. Mac is an interested observor of the community and surrounding area.

Mr. McFarland is a conscientious man who takes pride in his work and every thing he does. We of the annual staff also take pride in his work and for this reason we are dedicating the '69 JAY to him for his unselfish help, time and consultation. All we have left to say now is——"Thanks, Mr. Mac."



Linda!
I'm a real nic
geic I guess? Maybe
We'll get to know

Curriculum

Science and Math

It is a calculated field of study which requires a great deal of concentration and determination. Our curriculum provides the student with a variety of subjects in this course of study from general math or science to Physics or Trigonometry. To bring forth the fruits of success we have Mr. Curnett teaching high school mathematical courses, Mrs. Dorf instructing the Junior High science and math, and Mr. Griffith directing the senior High Science Department.

Social Studies . . .

Social Studies covers a broad spectrum of subjects including Psychology, Sociology, Civics, World History, Missouri History, American History and Citizenship. In this field we have very confident teachers such as Mrs. Detjen, Mr. Chase and Mr. Mitchell. These classes offer a great deal of entertainment as well as information to the student. A Social Studies student may expect to take field trips to such places as–Museums, Production Plants, and Sanitariums. All in all, the participant gets a well-rounded amount of education.

Fine Arts . . .

A fancy name for talent is all that Fine Arts happens to be. Fine Arts covers a broad spectrum of talent, too, from music to art, to speech. All are fun, but all do require a wee bit of talent.

Fine Arts is also the field where one can ably express himself, maybe not by the written word, but by the spoken word, word of song, or by intangible words.

Competent, dedicated teachers search for and many times help to bring out this "hidden" talent among the students. Mr. McFarland, Mrs. Barnes, and Mrs. Gahr are such teachers; people who care.

Language Arts . . .

Language Arts—another name for our English department has a faculty composed of Miss Bowers, Mrs. Barnes, and Mrs. Gahr. It is a field of involvement that is taken by all, studied by many, and liked by few. Since English is a required course of study, it proves to be a great challenge to the instructors to keep this subject from becoming a complete bore. All in all, we do find an enjoyable day in the life of the English student as he might view a modern translation of Chaucer's "Canterbury Tales" or see the teenage version of "Romeo and Juliet".

Practical Arts

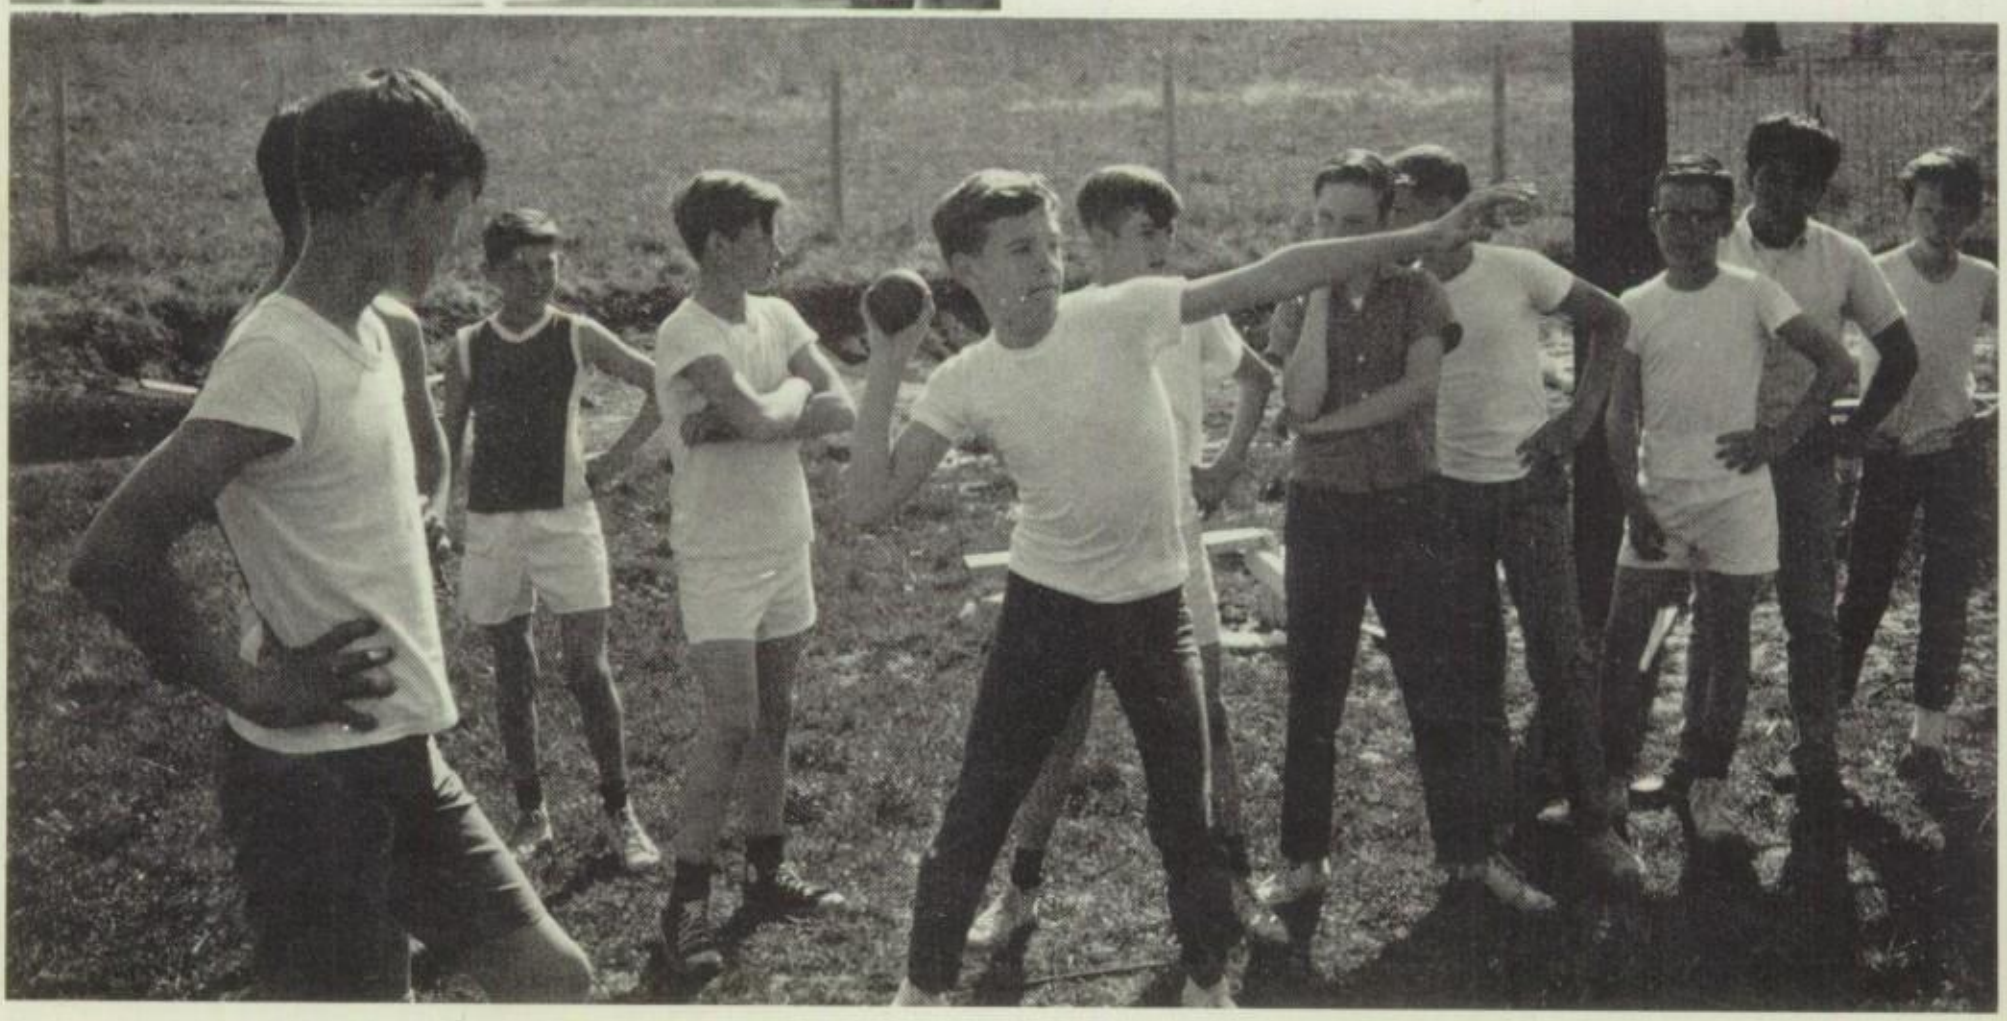
Through the help of Mrs. Lawson, Commercial teacher, and Mrs. Witt, the Home Economics instructor, students are given the opportunity to use their hands as well as their brains. Persons who sometimes are under-achievers in other classes excel in these. Both subjects meet the individual's needs and possibly are the most flexible courses offered.

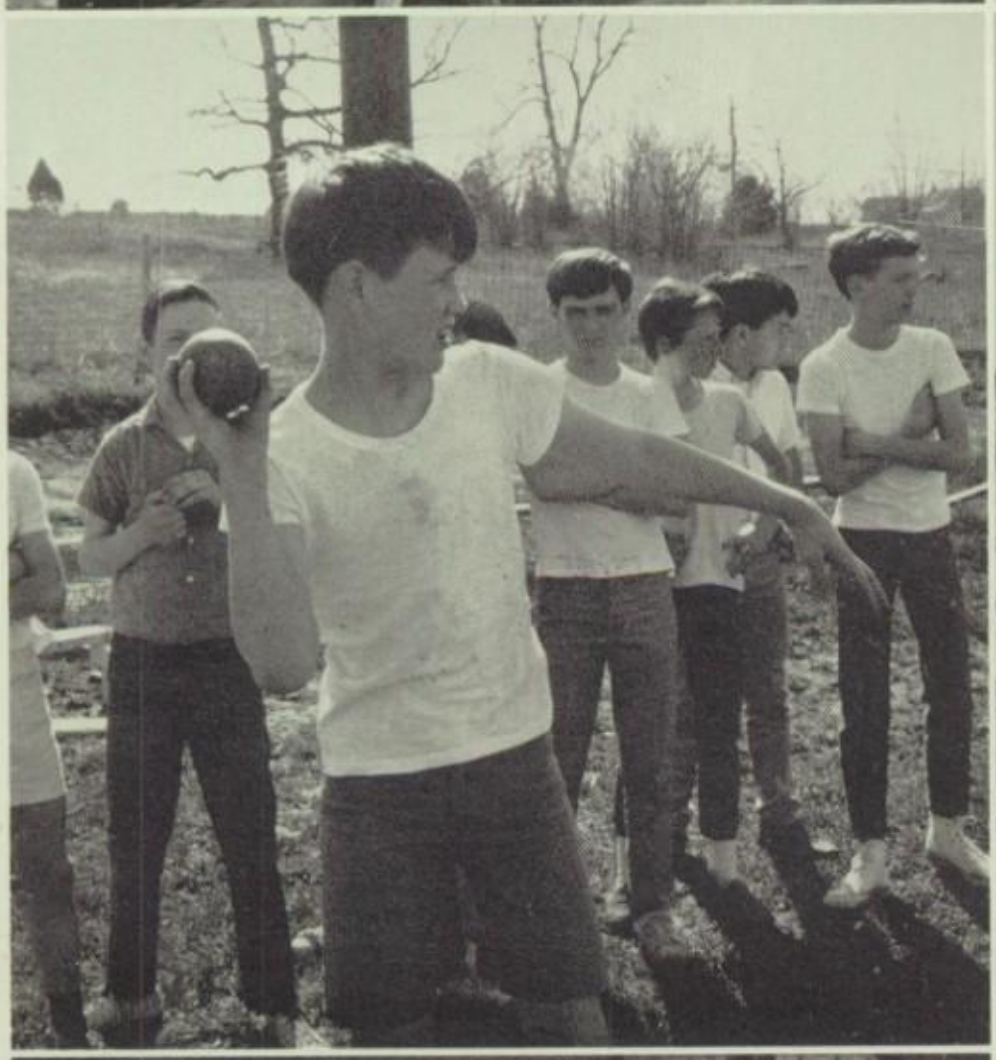
Mrs. Witt

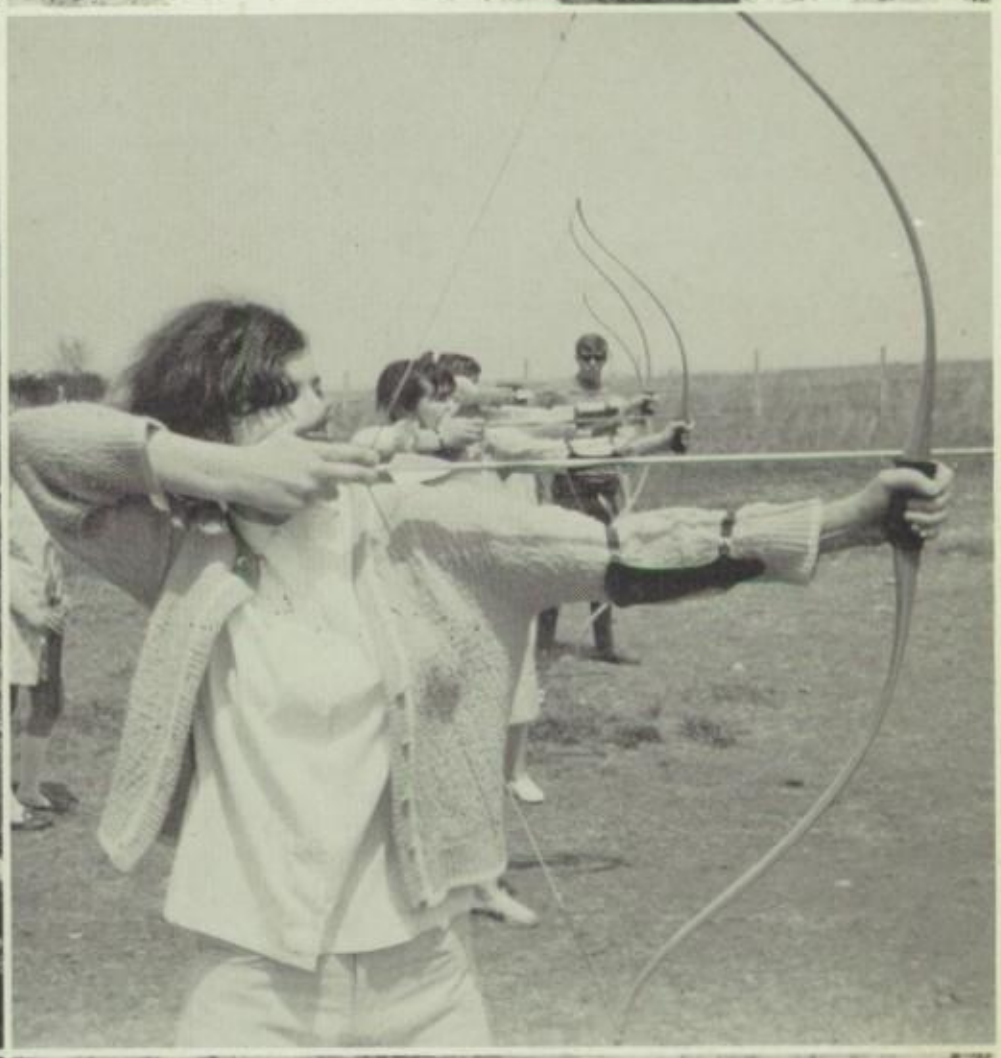
Physical Education . . .

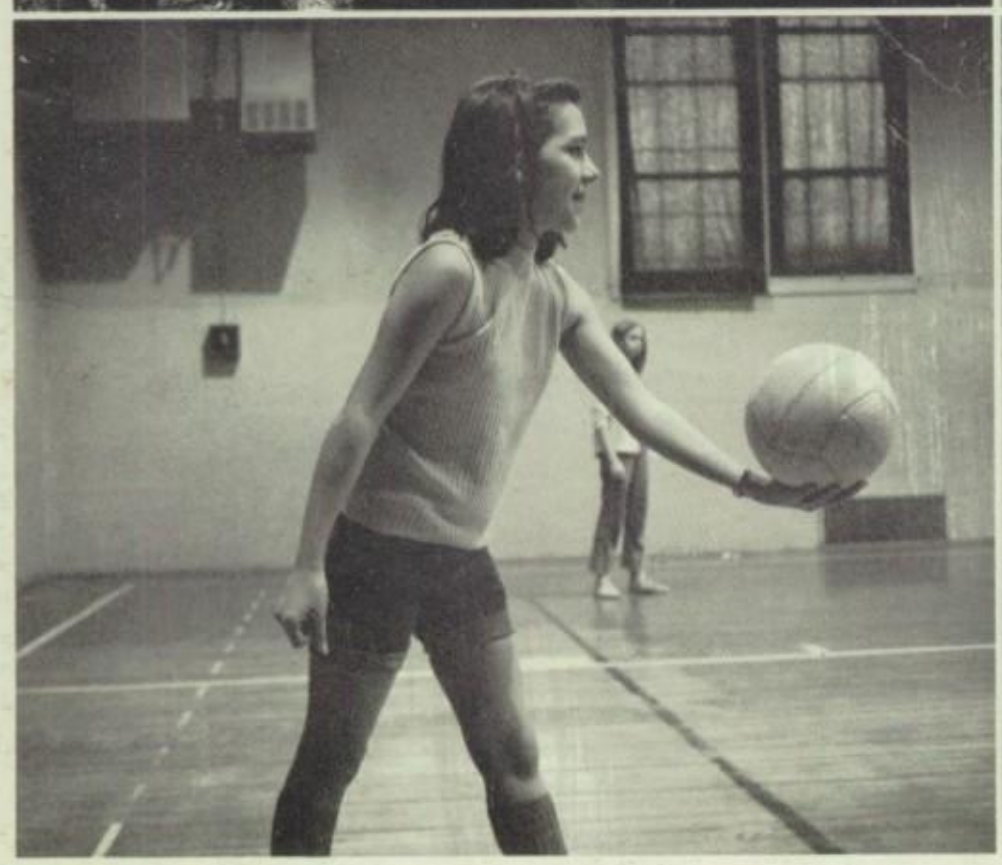
Physical Education, in its most common form comes under the heading of good, old P.E. To the majority of boys and girls, it is the most awaited class of the day. It is about the only time of "near" freedom that one is able to enjoy during the schoolday.

P.E. is a personal triumph. These triumphs are measured by the individual to represent different goals. Blocking a spike in a volleyball game, making the winning point in a basketball game or hitting the bull's eye in an archery match are all represented goals, that when achieved, bring a glow of pride and satisfaction to the participant. P.E. is truly a personal department where one thoroughly enjoys "doing his thing".









Driver's Education

Driver's Ed. is the department where skill, fast reactions and a cool confidence reign supreme.

It is a life-saver of a course that involves one of the responsibilities of being an adult. It is a field of instruction that most students take a little bit more pride in because of its grown-up responsibilities.

In Driver's Education, under the capable instruction of Mr. Elmer Beard, one learns all the technicalities necessary in the art of driving. Driver's Ed. may not be the most difficult course to pass, but it is certainly the most beneficial course to take.

F.H.A. Creed

We are the Future Homemakers of America
We face the future with warm courage
And high hope.

For we have the clear consciousness of seeking
Old and precious values.
For we are the builders of homes,
Homes for America's future.
Homes where living will be the expression of everything
That is good and fair.
Homes where truth, love, security and faith
Will be realities, not dreams.

We are the Future Homemakers of America
We face the future with warm courage
And high hopes.

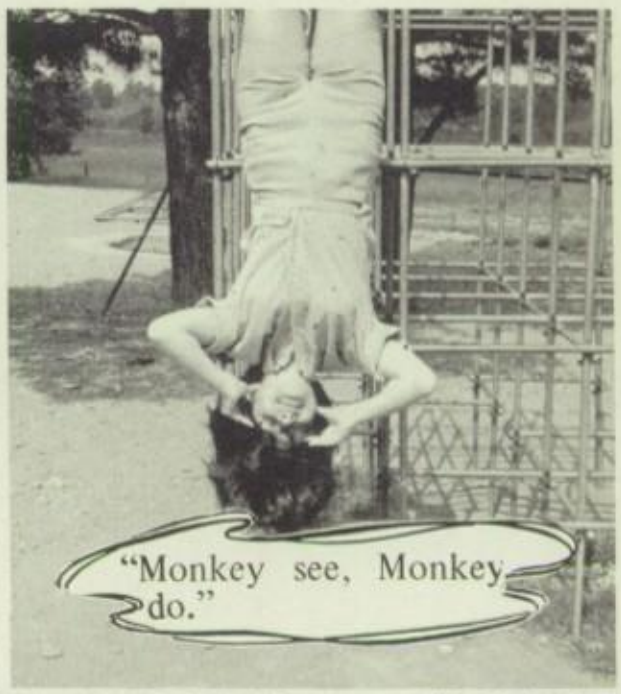
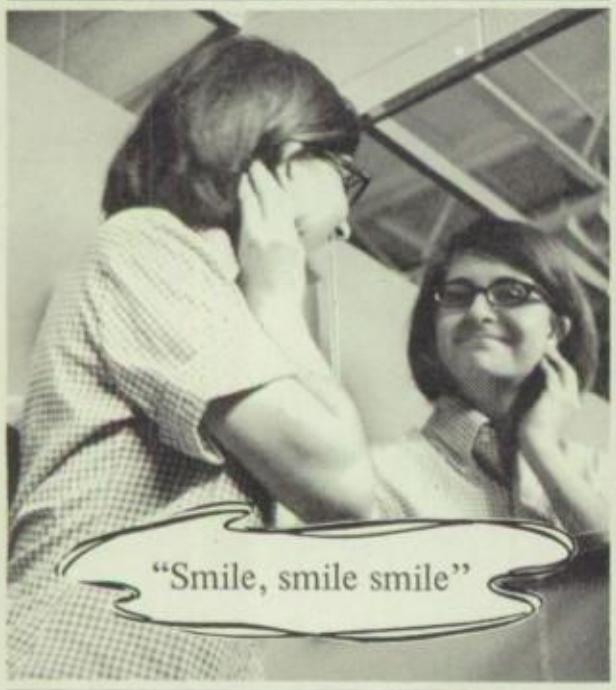
"Watch that fence!"

Lovable "B.J.", the queen of the '69 JAY, is pictured here in her natural habitat, being as zany as always.

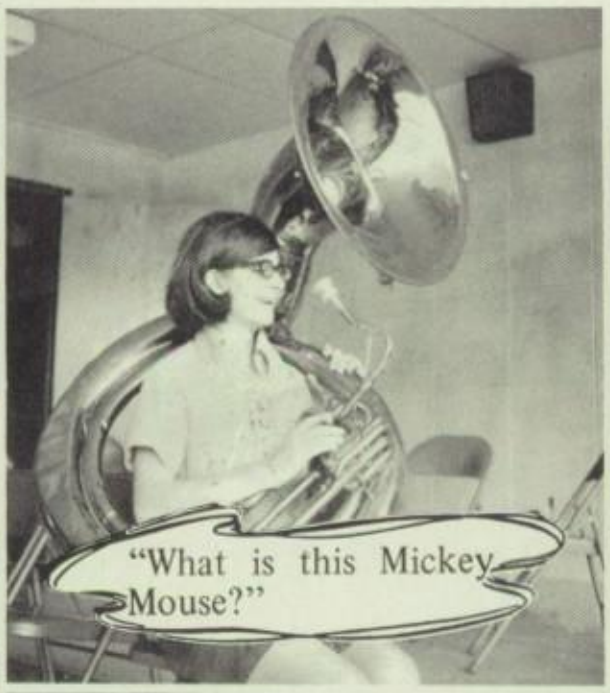
A day without "B.J.'s" smile is like a day without sunshine. She is a songbird, a dancer, a scholar, a seamstress, a cook, a mad scientist, anything you could think of and that's "B.J.!"



"Monkey see, Monkey do."



"Smile, smile smile"



"What is this Mickey Mouse?"

"Wonder whats down there?"

"See–I'm smart."

"This is the way it goes."

A Team with Soul . . .

The '68-'69 Blue Jays were a team to remember. Although they were not a winning team, they were victorious in the eyes of their followers. They displayed a great show of determination and effort throughout the season. As representatives of the school, they never ceased to exhibit a "winning" comination of teamwork and sportsmanship. While the records didn't show triumph, we feel that this was a basketball season we can be proud of for many years to come.

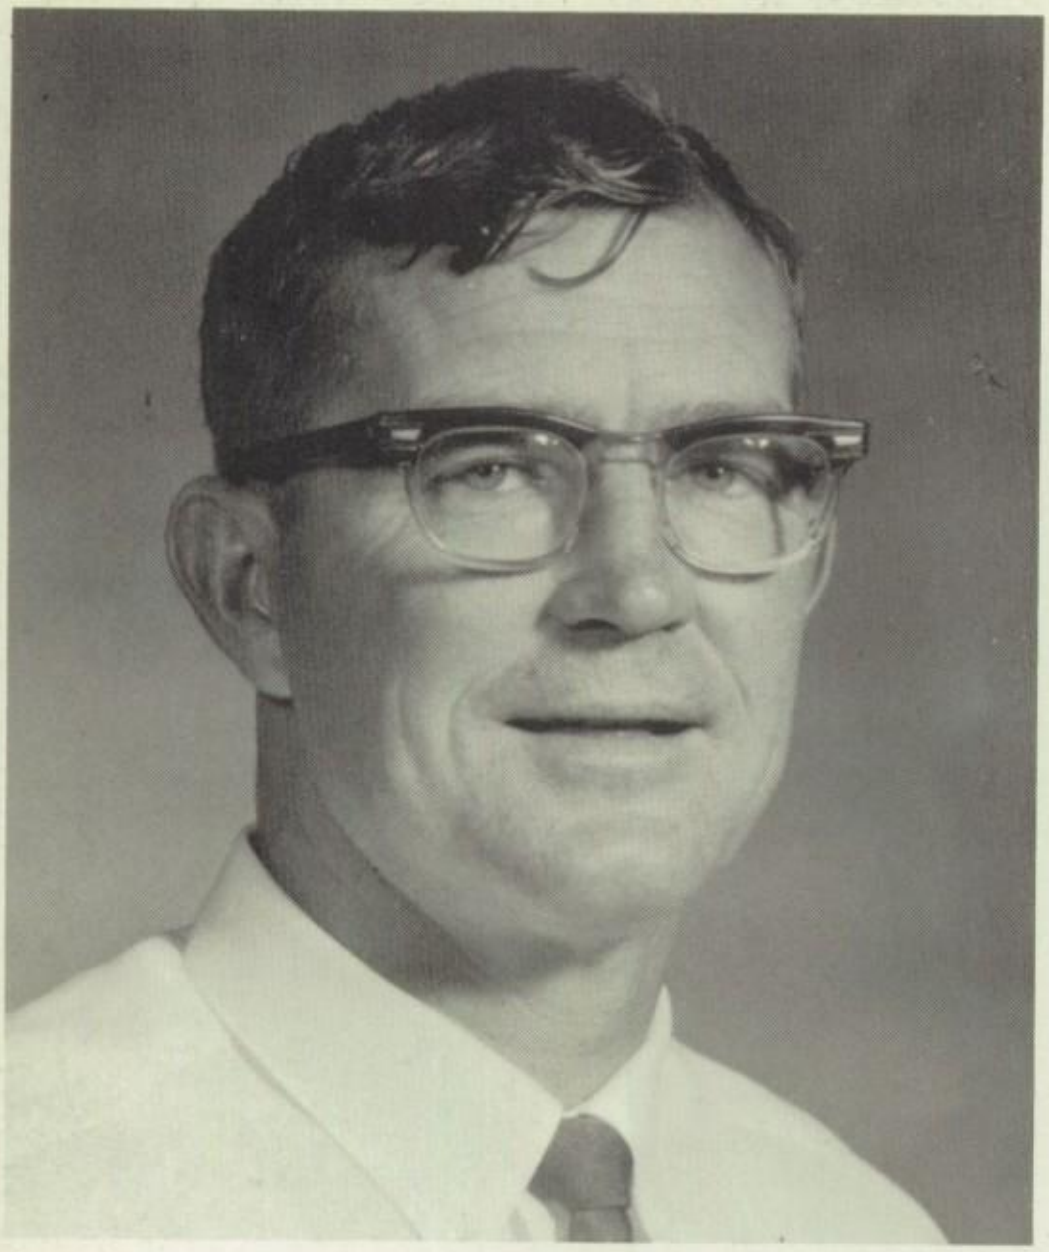
Junior High Class Officers

SEVENTH GRADE: Vickie Green, David Nelson, Colleen Talley. Seated: Vickie Nelson.

EIGHTH GRADE: Janet Stevenson, David Fox, Joanie Faulkner, and Norman Payne.



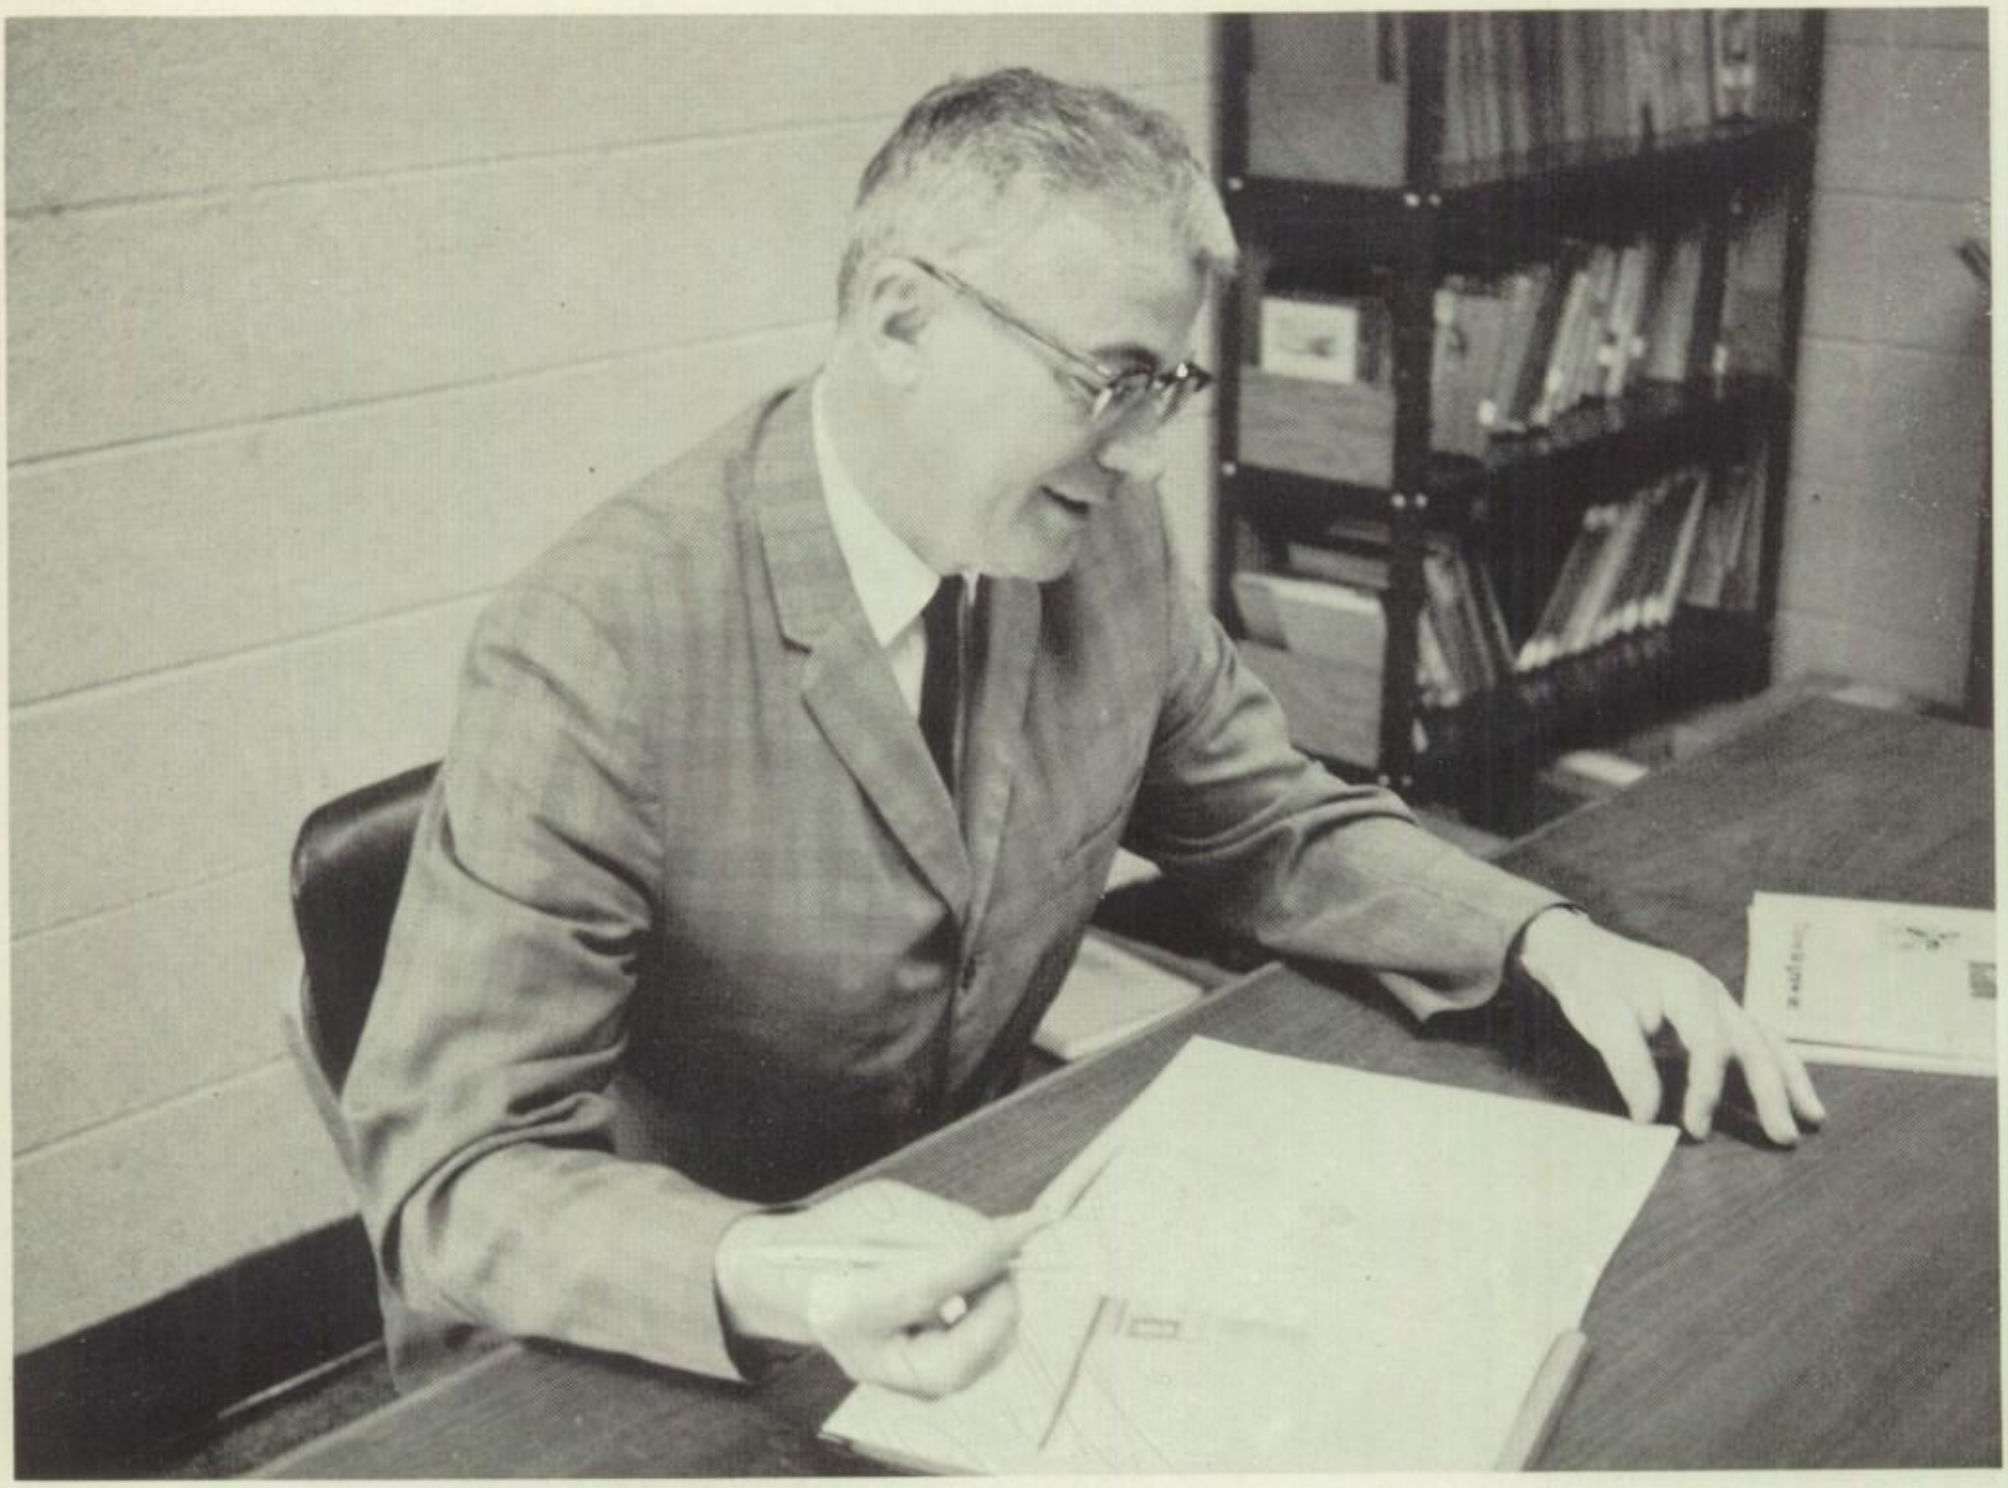
Mr. Tom Porter

Mr. Porter has been appointed the title of guidance counselor but his duties vary greatly from his title's implication. One will find that his office is the most popular spot in the school. He will attempt to solve any problem from a stomach ache to helping a person decide on his life's vocation. The most frequently asked question by any student to their teacher is, "MAY I GO SEE MR. PORTER."

Mrs. Mitchell has been given the most unwanted job in high school–study hall teacher. This is a job where the rewards are few and the tasks are hard. She has guard over a room that is used as a catch-all for those students other teachers don't want. Along with the position of study hall teacher, she serves as librarian and does her job well.

Mrs. July Mitchell

Administration



Mr. Clement B. Fox, Superintendent

"This book represents one facet of a year at school. The people you work with and know so well are named and pictured here for permanent memory. The things you learn and the wisdom you have gained this year becomes a part of you. The classes you attended, the ball games, the teachers, study hall periods, the books you read all blend in to make a happy memory that belongs to each of you."

Mr. Elmer P. Beard, Principal.

FRESHMAN AND SOPHOMORE OFFICERS—Seated: Richard Bell, Brenda Martin, Kenny Bailey. Standing: Randy Parker, Tom Burr, Jack Edgar, Charles Anderson.

JUNIOR AND SENIOR OFFICERS–Seated: Mark Fox, Faye Eaton, Floyd Hovis. Standing: Judy Easter, Joyce Gillam, Sharon Mitchell.

From the Editors:

Grades 9 thru 12–a time of uncertainty, a time of seeking and a time of bewilderment in the life of every high school student. This is the period of the "search"–the search for inner identity and one's self.

The journey of seeking takes many different routes. It involves the hum-drum routine of day to day school activity which begins with the sound of the alarm and stuuggling to wake up in the mornings and ending up usually by collapsing on the same bed 12 to 18 hours later. Yet intertwined with the hum-drum activity there beats a pulse of excitement and the unexpected that inspires one to upmost urgency to come and participate.

Participation–a big word, but it means so much to the high school student. Participation brings about the release of energy and emotions then also brings forth fresh new ideas that have been locked away in our teeming minds. Those final two winning points scored in an overtime game are a sign of participation, a sign of joy and relief and most of all a sign of pride. Emotion and mood reign supreme at an instant like this, as it does so often during this period of life.

Emotion and mood are two words which rule the teen-ager's world almost exclusively for they play an enormous part in the expression of ourselves. We are of a vulnerable impressionistic age when we change our mind about something at least a hundred times a day. Likewise we change our mood about as often. How we express our mood is conveyed in our emotions. Emotions rule our actions and likewise a person is judged by his actions. The judgements of our actions carry over into the adult world and sometimes determine what we will be in life.

One could easily sum this up by saying that mood and emotions play a very important part in our young lives and before it's all over, who knows what it could determine for us . . . . . .

With this yearbook, we have tried in a minute way to relate the moods and emotions of the everyday high school student. Whether we have succeeded or not is up to your judgment.

Sincerely,

Dave Sanders
